

Facilitator Retreat

Tucson, AZ

March 23 & 24, 2018

- When was the last time you deeply reflected on your fierce commitment to making schools better places for every student?
- Who are we? How do the beliefs we hold about equity, power, and privilege show up in our facilitation?
- How can we collaborate to develop and practice strategies that make explicit connections among instructional practice, student learning, and barriers to educational equity?

**We invite you to engage in
collaboration and professional
reflection at the SRI Facilitator Retreat**

Please consider this opportunity to connect with colleagues.
