

The Cienega Watershed Partnership invites you to attend the following:

Educator Workshop

Real World STEM Learning in the Cienega Watershed

Rincon Valley Fire Station, Vail AZ Wednesday June 6 2018 9am-2pm

With its unique feature of year-round water flow, Cienega Creek makes for an ideal subject of study. Science and history lessons come alive when students experience lessons that are based on this local living classroom. The workshop is targeted to middle school teachers, but materials can be adapted to fit any grade level. By attending this FREE workshop, attendees will:

- Gain strategies and ideas for incorporating the unique historical and science related features of the local Cienega Creek watershed into their curriculum.
- Learn about short term and long term projects based in the Cienega Watershed.
- Take a guided tour of the Cienega Creek Preserve.
- Participate in hands-on, watershed science-related activities.
- Continuing education credits provided.
- Snacks provided; bring your own lunch and a fillable water bottle.
